

TESMEC S.P.A.: WITH REFERENCE TO THE ORDER OF 88 MULTIPURPOSE RAILWAY VEHICLES AWARDED IN DECEMBER 2016, AGREED WITH RFI THE SET-UP OF 2 VEHICLES EQUIPPED WITH HI-TECH MEASURING SYSTEMS FOR A TOTAL VALUE OF AROUND EURO 9 MILLION

- **The vehicles will improve the control and maintenance of the national rail network;**
- **The delivery of the vehicles is scheduled for early 2019.**

Grassobbio (Bergamo - Italy), 25 June 2018 – Tesmec S.p.A. (MTA, STAR: TES), at the head of a group leader in the market of infrastructures related to the transport and distribution of energy, data and materials, announces that, with reference to the contract N.61/2007 awarded in December 2016, the set-up of 2 vehicles equipped with hi-tech measuring systems has been agreed with RFI - Rete Ferroviaria Italiana, the company of the Ferrovie dello Stato Italiane Group responsible for management of the whole national rail network. This investment is aimed at improving the control and maintenance of the national rail network.

The agreement, finalized through the subsidiary Tesmec Service S.r.l., is included in the contractual terms.

The delivery of the vehicles is scheduled for early 2019. The agreement, which also includes a 6-year full maintenance service (FMS), has a total value of approximately Euro 9 million.

This is the result of the high technological railway systems of Tesmec Group and its advanced know-how, which have been the basis for the agreement.

Tesmec Group

Tesmec Group is leader in designing, manufacturing and selling of systems, technologies and integrated solutions for the construction, maintenance and efficiency of infrastructures related to the transport and distribution of energy, data and material. In details, the Group is active in the following sectors: 1) transmission and distribution power lines (stringing equipment for the installation of conductors and the underground cable laying, electronic devices and sensors for the management, monitoring and energy automation); 2) underground civil infrastructures (high powered tracked trenchers for linear excavation of oil, gas and water pipelines, telecommunication networks and drainage operations; surface miners for bulk excavation, quarries and site preparation; specialized digging services); 3) railway lines (railway equipment for the installation and maintenance of the catenary and for special applications, e.g. snow removal from track; new generation power unit).

The Group, established in 1951 and led by Chairman & CEO Ambrogio Caccia Dominioni, relies on more than 750 employees and has the production plants in Italy - in Grassobbio (Bergamo), Endine Gaiano (Bergamo), Sirone (Lecco), Monopoli (Bari), in the USA, in Alvarado (Texas) and in France, in Durtal, as well as three research and development units respectively in Fidenza (Parma), Padua and Patrica (FS). The Group also has a global commercial presence through foreign subsidiaries and sales offices in USA, South Africa, Russia, Qatar, Bulgaria, China, France, Australia, New Zealand, Tunisia and Ivory Coast.

The know-how achieved in the development of specific technologies and solutions, and the presence of engineering teams and highly skilled technicians, allow Tesmec to directly manage the entire production chain: from the design, production and sale of machinery, to all pre-sales and post-sales. All product lines are developed in accordance with the ISEQ (Innovation, Safety, Efficiency and Quality) philosophy, with environmental sustainability and energy conservation in mind.
