

TESMEC: CATERINA CACCIA DOMINIONI APPOINTED VICE PRESIDENT OF ANIE ASSIFER

Grassobbio (Bergamo), July 15, 2026 - **Caterina Caccia Dominioni**, CEO of Tesmec, has been appointed Vice President of **ANIE Assifer**, the Association of Railway Industries within ANIE Federation, with delegated responsibility for institutional relations, during the General Assembly that elected Luca D'Aquila as President for the 2026–2028 term.

This appointment acknowledges Tesmec role in the Italian railway sector, where the Group operates in the design, manufacturing and maintenance of systems and technologies for railway infrastructure, with production facilities in Monopoli and Bitetto (Bari) dedicated to the Rail division. Caterina Caccia Dominioni has closely overseen this industrial presence, supporting its development over the years.

Caterina Caccia Dominioni, CEO of Tesmec, commented: *"I would like to thank the members for the trust they have placed in me. The safety of railway infrastructure is the prerequisite that makes everything else possible: the growth of freight and passenger traffic, the implementation of NRRP investments, and the modernization of the rail network. I will place the experience of the Group and of the Rail Division at the service of the Association at a time when the sector is being called upon to support a rapidly accelerating demand for infrastructure."*

Tesmec Group

Tesmec Group is active in the design, production and marketing of systems and integrated solutions for the construction, maintenance, and diagnostics of infrastructures (overhead, underground and railway networks) for the transport of energy, data and materials (oil and derivatives, gas and water), as well as technologies for quarries and surface mining. The Group operates in the following sectors: - Energy. Tesmec Group designs, manufactures, and markets machines and integrated systems for the construction and maintenance of overhead and underground power lines, fibre optic networks (Stringing segment), as well as advanced equipment and systems for the automation, efficiency, management and monitoring of high, medium and low voltage electrical networks and substations (Energy Automation Segment); - Trencher. Tesmec Group carries out the design, production, sale and rental of trencher machines functional to four types of activities (excavation and mines, excavations for the installation of pipelines, for the construction of telecommunication and optical fibre infrastructures, excavations for the construction of underground power networks), as well as the provision of specialized excavation services. The trencher machines are rented by the Group both with the operator (hot rental or wet rental) and without the operator (cold rental or dry rental); - Railway. The Group designs, manufactures and markets machines and integrated systems for the installation and maintenance of the railway catenary, devices for the diagnostics of the railway catenary and track, as well as customized machines for special operations on the line.

Born in Italy in 1951, the Group counts on more than 900 employees and has its production sites in Grassobbio (Bergamo), Sirone (Lecco), Monopoli (Bari) and Bitetto (Bari) in Italy, Alvarado (Texas) in the USA and Durtal in France. It relies on three research and development units in Fidenza (Parma), Padua and Patrica (Frosinone). Listed on the EURONEXT STAR MILAN of the Euronext Milan market of the Italian Stock Exchange, the Group boasts a global commercial presence through foreign subsidiaries and sales offices in the USA, in South Africa, West Africa, Australia, New Zealand, Russia, Qatar, Saudi Arabia and China. In its development strategy, the Group intends to consolidate its position as a solution provider in the three abovementioned business areas, by exploiting the trends of energy transition, digitalization, and sustainability.
